

ELEMENT 400

State-of-the-art technology
for the metal processing industry

ELEMENT 400

Presenting our newest generation of pioneering cutting solutions

The ever increasing demands for efficiency, quality and reliability are the driving forces that sharpen our focus on the needs of our customers. This has resulted in the development of the ELEMENT.

The ELEMENT is only one component of a total system solution for the modern metalworking industry.

The new generation ELEMENT is revolutionary. Maintaining productivity and precision, simple to update to meet with your future requirements, thus giving you the competitive edge – and helping to keep it.

BENEFITS

- + Increased productivity**
High-speed movements and positioning speeds of up to 50 m/min in X or Y direction
- + Improved cutting quality**
Smooth, vibration-free tool path movement thanks to helical rack and pinion drive systems
- + Faster cycle times**
Discover the new Global Lifter with a lifting speed of 30 m/min
- + Simplified track installation**
The cost saving floor mounted rails can also be mounted on I-beams if needed
- + Improved User Experience**
Eliminate paper, generate production data and simple to use: the new Global Connect CNC with 18,5 inch touch screen does it all
- + Flexibility**
Tailor made configurations and upgrades secure your investment value – today and tomorrow
