TWO-POST LIFT FOR VANS AND LIGHT TRUCKS

- Lift without base frame designed for cars, vans and light trucks of a gross vehicle weight of up to 5500 kg.
- Extremely rugged design, lifting columns are made of specially rolled long-life column profile which guarantees utmost stability. The low-wear Nylatron supporting nuts have excellent characteristics in case of emergency.
- Three-stage symmetric lifting arms with large swing range to pick up a wide range of vehicles, from small and large passenger cars up to vans and SUVs up to a maximum load of 5.500 kg.
- Vertically adjustable pick-up pads with a minimum height of 140 mm.
- Drive is by means of two synchronised electric motors, the crossbeam is vertically adjustable to suit customer requirements.
- A supporting frame is available as optional accessory should the foundation not meet the requirements.
- With duolift MSE 5500 your garage is perfectly suited to lift the latest vans (i. e. VW Crafter, MB Sprinter, Opel Movano etc.).
